# Exercise class – Ex2

Noemi Bühner, [noeminaijia.buehrer@uzh.ch](mailto:noeminaijia.buehrer@uzh.ch)

## Comments on Exercise 1

- TPlan is stored in *patientdata.mat*
- You can use any packages you want

**Any questions regarding ex.1?**

## Exercise 2

**Implement a function to visualise a dose distribution together with the CT and the VOIs!**

- The dose distribution is stored in *exampledose.mat*
- Show the CT in greyscale and the dose distribution in colour (e.g. *jet* colourmap)
- Show the VOIs from ex.1
- Make the dose distribution partially transparent by setting the `alpha` parameter

## What we expect!
